

Industrial Lighting, Wire, Cable, Alarms, Security, Controls and more.

Industrial environments are the most demanding industry.

Our products are specifically designed to provide you with the most reliable and best value solution to your electrical needs.

Whatever your need from safety and identification, backup power, electrical connections to explosion-proof lighting and electrical products and everything in between we can help you find a solution.

ARLINGTON FITTINGS

Arlington Fittings is a leading manufacturer of quality electrical products, communications products, home theatre products, and more.

Some of their product offerings include **floor boxes, cord grips, conduit fittings, home theatre and Audio Visual (AV) boxes, security products, and weatherproof boxes.**

ATKORE

Recognized as a leader in electrical, safety, and infrastructure solutions, our products are used to power and protect the world, including Electrical Conduit and Fittings, Cable and Cable Management Systems, Infrastructure Products, and Safety and Security Products.

Atkore has some of the industry's most recognizable brands and a portfolio of must-stock products to power and protect the world.

For over a century, we have forged long-standing customer relationships through innovation, service, and problem-solving.

BEMAG

Jefferson Electric proudly partners with **Bemag Transformer** to support customers across Canada.

BRK

BRK is an innovative leader in smoke and carbon monoxide alarms.

From creating the first residential smoke alarm to leading the way in connected safety products that integrate **Amazon Alexa.**

BRK and First Alert offer various safety products from **smoke and carbon monoxide alarms** to **fire extinguishers** and **escape ladders.**

CECO POLES

Ceco Poles & Structures

has a 25-year track record building light standards, pole-line hardware and site-specific structures for the roadway, energy, land development and agricultural markets.

CHROMALOX THERMAL

At **Chromalox**, we develop advanced thermal technologies for the world's toughest industrial heating applications.

Our Heat Trace Segment delivers Temperature Management Solutions for piping systems, valves, and tanks. **Our Industrial Heaters and Systems**

Segment delivers Process Heating Solutions for revenue-generating industrial processes. **Our Component Technologies Segment** delivers Component Heating Solutions for industrial equipment manufacturers.

Ex-Solutions™

EX-SOLUTIONS

ABB Ex-Solutions™ offers a wide range of AREA LIGHTING products.

Our products are designed with the customer in mind. We offer LED lighting solutions that use 75% less energy than HID, and up to 90% less energy than incandescent products.

Many of our LED products offer a life expectancy of up to 100,000 hours.

FIRST ALERT

FIRST ALERT

First Alert is an innovative leader in smoke and carbon monoxide alarms.

From creating the first residential smoke alarm to leading the way in connected safety products that integrate **Amazon Alexa**.

BRK and **First Alert** offer various **safety products** from **smoke** and **carbon monoxide alarms** to **fire extinguishers** and **escape ladders**.

FLO

With a seamless network of easy-to-use EV charging stations and a complete portfolio of dependable solutions, **FLO** is dedicated to keeping you moving.

At **FLO**, our mission is to help overcome climate change and accelerate the adoption of electric vehicles by offering the best EV charging experience.

HAMMOND

Hammond provides a wide range of standard products, product customization services, and technical support to electrical and electronic manufacturers, utilities, and institutions through a global network of agents and distributors.

HAZLUX

From an offshore oil rig in the Atlantic Ocean to the factory floor, there's a **Hazlux® lighting fixture to stand up to virtually every hazardous location.**

You can rely on Hazlux® to safely provide light where you need it. Even under the harshest indoor and outdoor conditions. If safety, labor reduction, quality and reliability are your priorities, consider Hazlux® lighting products to reduce maintenance and prevent downtimes Hazlux® production team.

INNOVOSYS

Industrial and Commercial Surge Protection Solutions.

Innosys Power is a Canadian leader in the Surge Protection industry. We have specialized in providing surge protection solutions since 1985. It's all we do. We provide our customers with certainty.

JEFFERSON ELECTRIC

Jefferson Electric proudly partners with Bemag Transformer to support customers across Canada.

Every item in our broad selection is built to the industry's highest standards, backed by an ISO-backed quality system, and tested multiple times before leaving the factory.

LUMACELL

LUMACELL

A leading brand of emergency lighting and exit signs in Canada, Lumacell products include architectural, commercial and industrial products to meet the highest requirements.

ABB Lumacell uses the latest technologies to maximize the efficiency of its environmentally friendly products designed and manufactured in Canada.

Nemalux

NEMALUX

Nemalux is the primary Canadian manufacturer of hazardous location LED lights. We provide luminaires that improve safety and reduce environmental impacts.

We provide a full line of LED products that support the industry with technology and design.

Nemalux manufactures industrial grade and hazardous location approved luminaires. Our products provide safe and effective lighting. We upgrade conventional light fixtures where water, vibration, or temperature affect long-term performance.

NOCOM

NOCOM

Nocom is a Canadian-owned manufacturer of high-quality and cost-effective electrical components, delivering flexible solutions to bring even the most complex projects to fruition.

Modular Wiring | Floor Boxes | Lighting Controls | Specialty Applications

NOVA POLES

Nova Pole International is a Canadian-owned company and is a high-quality, cost-effective volume producer of infrastructure poles.

The company designs, manufactures and markets tubular steel and aluminum poles for use in highway and street lighting, traffic signals, overhead traffic signage, electrical distribution and transmission towers, wireless communication towers, high mast and sport lighting poles, transit poles, solar lighting and wind tower poles, plus an extensive line of decorative streetscape lighting poles and bases.

OMNICABLE

OmniCable is a premier redistributor of wire and cable, electrical products, and value-added services. Since our founding in 1977, we have sold exclusively through distribution.

Industrial Ethernet Instrumentation, Lutron and Low Voltage Lighting, Medium Voltage, Sound and Security Cable, Submersible Pump Cable, Telephone and Data Cable, Thermocouple, Traffic Signal Tray Cable, VFD, VITALink

ON POWER

On Power is North America's leading independent **power management solutions** provider.

Data centers, health care providers, retail stores, manufacturing operations and other businesses all rely on clean, reliable power and properly operating backup power solutions to keep business going.

On Power's team of electrical engineers and factory-trained technicians are available all over North America to ensure that your **power management solution** is the right one both to keep your business running and to ensure scalability.

PHOENIX LIGHTING

Phoenix Lighting provides **High-Performance Lighting Fixtures** for the **Harshest Environments**.

LED Technology that can withstand the toughest conditions. Offering a wide range of premium lighting fixtures and systems.

RESIDEO

Resideo Technologies, Inc. is an American multinational company that was formed in 2018 out of a spin-off from Honeywell.

It provides room air temperature, quality, and humidity control and security systems primarily in residential dwellings in the U.S. and internationally. The company operates in two segments: products and distribution. It manufactures and distributes **smart-home** and **software products**, including **temperature** and **lighting control**, **security**, and **water** and **air monitoring**. The company also distributes **security**, **fire** and **low-voltage products**.

SPIKE ELECTRIC CONTROLS

Spike Electric Controls, is a globally certified custom engineering manufacturer of quality electrical gear for the energy industry.

Spike supplies products such as **Explosion-proof panelboards**, **industrial control** and **automation**, **MCC buckets**, **Switchracks** and **skids**, and **custom class-rated enclosures** and **lighting distribution**.

STATICON

Staticon Ltd. is an **established Canadian company**. Specializing in the design, manufacture and applications of essential, **electrical DC** and **AC power supply equipment**.

Station power products encompass a complete spectrum of applications requiring a wide range of power. **Standard AC-DC**, **DC-DC** and **DC-AC power conversion modules**, **AC line conditioners** and **transfer systems** configure a variety of optimum power systems.

VALMONT STRUCTURES

Valmont Structures is one of the world's leading providers of infrastructure solutions.

Integrity also defines how we work with our customers, suppliers and partners across the street and around the world. Whether it's **lighting**, **traffic**, **mass transit**, **signage**, or **wireless communication structures**, Valmont Structures delivers integrity.

SOLAR VISION

Since 2010, **Solar Vision** has been at the forefront of innovation and technology.

Revolutionizing the industry by designing and manufacturing **high-performance and reliable commercial solar lighting products**. Operational in a wide range of climatic conditions.

WAGO

Wago is an electrical interconnection, automation, and interface electronic technology company.

They manufacture maintenance-free terminal blocks along with automation products and interface electronics.

Wago's high level of engineering expertise and emphasis on quality ensures you will have the maximum reliability and longevity when you choose Wago.
